Relatives of Famous Horses in Lot Bred at Castleton Stud in Kentucky.

Confident that racing will some day be revived in the State of New York, James Butler, who has done much for the turf in this country, has purchased the entire lot of Castleton bred yearlings from the estate of the late James R. Keene. Mr. Butler, it was learned yesterday, has paid \$60,000 for fourteen colts and twenty-two fillies, which will not be ready to race until next year. In making this purchase Mr. Butler in a way will perpetuate the Mr. Butler in a way will perpendent of New York, work of the late Mr. Keene as a breeder of Beaumont. thoroughbreds, for it is thought that in due time he will have a breeding estab-

Several years ago after an extensive campaign on the trotting tracks Mr. Butler bought several thoroughbred colts and fillies, but they did not pan out. Yet he always has remained enthusiastic, and with the prospect of opening some of the New York race courses within the next year or so his purchase of the Castleton yearlings is repurchase of the Castleton yearlings is re-

Assemblyman Cuvillier was the only one who opposed the bill, declaring its passage would be disrespectful to the Court of Appeals, where a decision in the Shane case is pending. It seemed to be the sentiment of the committee at the close of the hearing that the bill would not be reproted because it would internot be reported because it would inter-fere with pending litigation.

All Players Invited Will Take Part in Tryouts.

Though Harry Payne Whitney, captain of the American polo team which will de-tend the international cup at Meadow Brook in June, is detained at French Lick, Ind., arrangements are progressing for the training of the team, which is sched-uled to begin at Lakewood on April 1. Gould and Huhn Win Easily.

PHILADELPHIA, March 26.—Playing in the form that won them the national doubles championship last year Jay Gould and W. H. T. Huhn defeated George H. Brooke and Wilson Potter in the third of their doubles court tennis matches at the Racquet Club this afternoon by three sets to none. The winners gave the losers half 30 and the result came as a decided sur-prise, as in the two previous matches the teams had been very evenly matched.

Pennington Better Than Ever. Judging from the way Pennington Commercial's star pitcher, has been fool-ing all the Commercial batters for the past two weeks, he is even better this season than last. In the few practice games, as well as in the batting practice, this young pitcher has been forced to take it easy to give his team mates any practice at all in fielding. Eevn last year's heavy hitters, such as Baron, third base, and Capt. such as Baron, third base, and Capt. Danny Sterns, catcher, are unable to hit him.

ways yesterday to incorporate change language in motor talk. The Motor Dealers' Contest Association, it became known, has gone so far as to select a site on Long Island for a motor speedway and w have outside capital build it. The promise of support of the local dealers is what has interested the outside money, it is said. Further details of the speedwa plan will be announced later. The place is not far from Garden City, but not the same place the New York motor speed-way announced last December it would build.

The New York Motor Speedway, it looks now, never will be built. Although not yet actually abandoned it probably will be before long. The local dealers and the New Lork Motor Speedway did not get together on terms, although hoth were working to the same end and the were working to the same end and the Speedway company was first in the field. A representative of the New York Motor Speedway said yesterday that he had been told by one of the dealers it wouldn't be worth while going ahead because the dealers wanted their own speedway and the rival if it were constructed would not get the entries.

Just because a site has been selected and the statement made that the project

and the statement made that the project will be financed by a large industrial corporation that owns the land selected does not mean for sure there will a speedway built. It has been the ex-perience here in New York to have such things projected but fall through. Perhaps this time the affair is on a ike basis with better chances for success. That remains to be seen.
